

As the weather is becoming much colder please remember to send children in their jumpers and with a warm coat. Please also ensure these are named so that if they are misplaced, they can make their way back to your child.

**Flu Vaccinations** - The School Immunisation Service will be back in school next **Tuesday 5th December**. You can scan the QR Code or follow the link on the attached poster to register your child or to opt out. Please note that no child will be immunised without your consent.

### HELP RAFFLE PRIZES NEEDED

Raffle prizes - We are still requiring more raffle prizes for our Christmas Raffle which will be held during the Christmas Fair.

**Road Closures** - We understand there are emergency and planned road closures in the area at the moment. However the safety of our children and families must not be compromised due to **irresponsible parking around the entrance to the school**. Please allow extra travel time to eliminate the need to park so close to school and walk a little further. I am sure all will agree that the safety of our children is paramount.

# Age Restrictions on Social Media

**It is against the law to be on social media sites under the age of 13!**

The COPPA law or Children's Online Privacy Protection Act states that any organisations or people operating online services (including social media services) are not allowed to collect the personal information of anyone under the age of 13 without parental permission.

**Facebook, Instagram, Twitter and Snapchat** all require users to be **at least 13 years old** before they can create an account.

Creating a Facebook account with false information is a violation of Facebook's terms, including accounts registered for someone under 13.

**The minimum age for WhatsApp is 16 years old.** YouTube requires account holders to be aged 18 years and over.

## Apps

Apps can be a positive place for young people to socialise with peers. Many enable instant messaging, social networking and image sharing.

Some, like YouTube, can also be a great creative outlet. But consider:

- Privacy settings and age relevance
- Talking to them about the content they share
- Discussing the consequences of sharing messages and images.

## Instant Messaging

Instant Messaging is a great way to socialise and keep up to date with what's going on right now. However there is a risk of unsolicited contact. If your child is using messenger services you should:

- Look at the privacy settings
- Ensure they understand that they may be talking to people they don't know and the risks this brings
- Talk to them about what is and isn't appropriate to send.

## Online Safety Guidance for Parents

Online spaces, games and media form a large part of life for young people growing up today. They offer platforms to connect with others and to learn.

### Risks

Of course there are risks associated with being online, as there are with all aspects of life. These include:

- Exposure to inappropriate content
- Sharing too much personal information
- Connecting with harmful people and
- Spending unhealthy amounts of time online.

### Have a conversation

One of the best ways to help young people stay safe online is to talk to them about what they do.

If you understand the situations they encounter you'll be better placed to offer them advice on how to deal with them.

## Gaming

Gaming is fun but be aware that it can be all consuming. Some things to consider:

- Use the gaming consoles' safety settings
- Agree with your child how much time they can spend playing online
- Pay attention to the PEGI (age) ratings and what they mean
- Remember that some online games have inbuilt chat functions
- Be aware that your child might use servers or 3rd party applications to access interactive online communities.

## Bullying

Remember, it's not the technology that's the problem, it's the bullies' behaviour. Support young people by:

- Talking about bullying issues
- Making sure young people know that they can turn to you for support
- Reporting any incidents - it will help your child and others too.

## Live Streaming

Broadcasting online brings an instant thrill that can be addictive. Encourage young people to think about:

- Body image - talk to them about how they want to be perceived online and who their audience might be
- Privacy - how do they protect it? You can't edit something that is going out 'live'
- Age appropriate - is the site they're using appropriate for them? Most social media sites are aimed at 13 year olds and upwards. If not, is there a way to make it safer for them (e.g. YouTube Kids).
