Age Restrictions on Social Media

It is against the law to be on social media sites under the age of 13!

The COPPA law or Children's Online Privacy Protection Act states that any organisations or people operating online services (including social media services) are not allowed to collect the personal information of anyone under the age of 13 without parental permission.

Facebook, Instagram, Twitter and Snapchat all require users to be at least 13 years old before they can create an account.

Creating a Facebook account with false information is a violation of Facebook's terms, including accounts registered for someone under 13.

The minimum age for WhatsApp is 16 years old. YouTube requires account holders to be aged 18 years and over.

Apps

Apps can be a positive place for young people to socialise with peers. Many enable instant messaging, social networking and image sharing

Some, like YouTube, can also be a great creative outlet. But

- · Privacy settings and age relevance
- Talking to them about the content they share
- Discussing the consequences of sharing messages and images.

Instant Messaging

Instant Messaging is a great way to socialise and keep up to date with what's going on right now. However there is a risk of unsolicited contact. If your child is using messenger services you

- · Look at the privacy settings
- Ensure they understand that they may be talking to people they don't know and the risks this brings
- · Talk to them about what is and isn't appropriate to send.

Online Safety Guidance for Parents

Online spaces, games and media form a large part of life for young people growing up today. They offer platforms to connect wi others and to learn.

Of course there are risks associated with being online, as there are with all aspects of life. These include:

- Exposure to inappropriate content
 Sharing too much personal information
 Connecting with harmful people and
- · Spending unhealthy amounts of time online.

One of the best ways to help young people stay safe online is to talk to them about what they do.

If you understand the situations they encounter you'll be better placed to offer them advice on how to deal with them.

Gaming

Gaming is fun but be aware that it can be all consuming. Some things to consider:

- Use the gaming consoles' safety settings
- Agree with your child how much time they can spend playing online
 Pay attention to the PEGI (age) ratings and what they mean · Remember that some online games have inbuilt
- Be aware that your child might use servers or 3rd party applications to access interactive online communities.

Bullying

Remember, it's not the technology that's the problem, it's the bullies' behaviour. Support young people by:

- Talking about bullving issues
- · Making sure young people know that they can turn to you
- for support Reporting any incidents it will help your child and others too.

Live Streaming

Broadcasting online brings an instant thrill that can be addictive. Encourage young people to think about:

· Body image - talk to them about how they want to be perceived

online and who their audience might be

• Privacy - how do they protect it? You can't edit something that is going out "live"

· Age appropriate - is the site they're using appropriate for them? Most social media sites are aimed at 13 year olds and rds. If not, is there a way to make it safer for them (e.g.
